

Doctoral Degree in Communication

Curricula & Research

Research Line	Goal
Communication in organizations	Analyze the models, dynamics, logic, processes and communication challenges faced by business public, private, civil, solidarity and virtual organizations, in local, regional and international arenas, after the communication ecosystem that has been setting up in recent years and in which interest groups, publics and citizens actively participate.
Journalism, culture & society	Investigate the circulation modes of journalistic messages as well as the social and cultural transformations they produce. Likewise, this line will also address the changes in the routines of messages production and in the reception areas.
Languages, narratives & representations	Investigate the diverse communicative messages to find patterns, aesthetics, and the identities they define, besides their interpretation by audiences, critics, experts and artists.
Communication, media & citizenship	Analyze the socio-political changes of the current context from the possibilities offered by the media ecosystem when building the public arena.
Communication theories	Enquire and debate on the theoretical concepts formulated on communication on its various and dense dimensions: public, political, audiovisual and organizational.
